

RainSoft turns ordinary water into extraordinary water . . .

Hydrefiner™ II Drinking Water System

- High Capacity
- Compact
- Reliable

Get Bottled Quality Water Without the Bottle or the Bother

The Hydrefiner II drinking water system tucks neatly under your sink and dispenses a constant supply of delicious water to the RainSoft faucet installed to your sink.

The heart of the system is a highly compressed carbon block filter made of selected activated carbons to reduce tastes and odors, and aesthetic chlorine.

Up to 400 gallons of drinking water can be produced before the cartridge needs replacement.

The Hydrefiner II drinking water system effectively reduces the following contaminants:

- Bad tastes and odors
- VOC's and chlorine
- Dirt and rust

System Features

- Compact unit installs conveniently under your sink.
- Sediment Pre-Filter removes particles as small as 5 microns in size from your drinking water.
- Carbon Block Filter reduces harmful Volatile Organic Compounds (VOC's) that pose a threat to human health and the environment.
- Limited Lifetime Warranty against defects in manufacture for the lifetime of the first purchaser at retail.
- WQA Certified in performance and extraction tests.

RainSoft turns ordinary water into extraordinary water . . .

The smart, economical way to enjoy the best water possible.

How a Hydrefiner II Drinking Water System Works

- Step 1:** Cold water enters the system.
- Step 2:** Water is forced through the pre-filter cartridge that reduces particles and sediments.
- Step 3:** Water is forced through the tightly compressed activated carbon block filter that reduces chlorine taste and odor and organic containments.
- Step 4:** Water leaves the filter and flows through the system's faucet, providing you with an abundant supply of crystal clear, delicious water for both drinking and cooking.

Hydrefiner II System Specifications

Flow Rate: .90 gallons per minute (3.41 LPM)

Capacity: 400 gallons (1,514 liters)

Operating Supply Pressure: 30–100 PSI (2.07–6.89 bar)

Operating Temperature: 34–100°F (1.1–37.8°C)

RainSoft
Taking the Worry Out of Water ...Since 1953

The Hydrefiner II models SC-CHFP, SC-CHFV, SC-BNFP AND SC-BNFV are tested and certified by WQA to NSF/ANSI 42 and 53 for the specific performance claims as verified and substantiated by test data. See performance data sheet for specific reduction claims.

Benefits will be provided by various types of RainSoft equipment when installed and operated according to manufacturer's recommendations. Operational, maintenance and replacement requirements are essential for the product to perform as advertised. All claims based on best available information at time of printing. Manufacturer makes no representations as to the suitability of this equipment for a particular application. Buyer relies entirely on dealer's recommendations in the purchase of this equipment. Independent RainSoft dealers may include, together with your RainSoft product, a product or component that is not manufactured by RainSoft or their parent company, Aquion, Inc. Any non-RainSoft product may be covered by the manufacturer of that product, and is not covered by the RainSoft warranty. Aquion, Inc. does not warrant that your RainSoft product and the non-RainSoft product will perform properly when used together, and assumes no liability therefore.
